VHF ANTENNAS

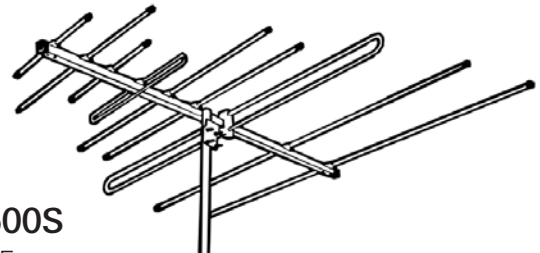

213S

VHF

The 213S is a popular VHF channel antenna which provides good gain on channels 2-13.

6'2" 6 lbs.

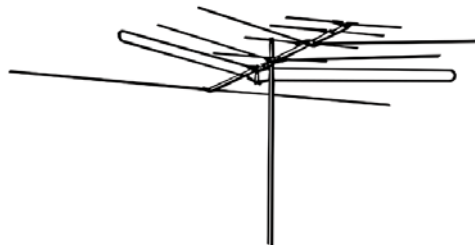

P500S

VHF

The Super Pirate P500S is one of the most popular of all VHF antennas ever designed by Delhi. It provides moderate gain on certain channels and has good rejection of unwanted signals from back and sides.

6'6" 6 lbs.

The P500S and 2135 are VHF antennas which have proven themselves over the years.

DWE 247

VHF

Very high forward gain on channels 2,4 and 7. Also receives 5, 9 and 11 on its side lobes.

6'11" 11 lbs.
